

THE STATE
OF
THE VALLEY

PRODUCED BY THE VALLEY CONSERVATION COUNCIL (2003)

Acknowledgments

State of the Valley Report

Produced by the Valley Conservation Council, August 2003

Project Team:

Project Manager/Author: Sara S. Hollberg, AICP

VCC Staff: Kathy Holm, Mary Joy Scala,
Melanie Griffis Tillison

Board Member: Faye C. Cooper

Researchers: Sara Hollberg, David Phemister, Ann
Whitham, Steve Bolton, Kathy Holm

Design and Layout: David Pugh

Drawings: Marcia Joseph, ASLA, AICP

GIS Mapping: Gavin Sanderlin

Mapping Design Assistance: Marsha Vayvada

Funding:

Partial funding for this project was provided by the U.S.D.A. Forest Service through the Chesapeake Bay Small Watersheds Grant Program administered by The National Fish and Wildlife Foundation on behalf of the U.S. Environmental Protection Agency, Chesapeake Bay Program.

Additional funding was provided by the Environmental Protection Agency, Chesapeake Bay Implementation Program through the Virginia Department of Conservation and Recreation via Grant Agreement number BAY-2001-23-SR.

The Agua Fund, Inc., also provided funding.

Special thanks goes to Grant and Josephine Griswold for generously supporting the printing of this publication.

Contributors:

VCC is grateful for the assistance of many people who provided information for this report, especially the following:

Virginia Department of Conservation and Recreation (Natural Heritage – Steve Carter-Lovejoy; Mapping – David Boyd; Virginia Division of Soil and Water Conservation – Mark Hollberg, Becky Cottle, and Julie Jenkins); Virginia Department of Forestry – Louise Finger, Charles Becker, John Pemberton; Virginia Department of Historic Resources – David Edwards, Joan Evans, Calder Loth; Virginia Outdoors Foundation – Faye Cooper; Virginia Cooperative Extension – Bill Whittle; Natural Resource Conservation Service – Louis Heidel and Bobby Whitescarver; U.S. Department of Agriculture, National Agricultural Statistics Service – Steve Manheimer; Virginia Department of Agriculture and Consumer Services – Cathy Belcher; U.S. Forest Service – JoBeth Brown; Central Shenandoah Planning District Commission – Darryl Crawford, Bonnie Riedesel; also Jay Gilliam of Virginia Save Our Streams, Jeff Ishee of the Staunton-Augusta Farmers Market, and Bill Tanger of Friends of the Rivers of Virginia (FORVA).

The planners and administrative staffs in the 11 counties and 7 cities of the region deserve special recognition. Their helpfulness and repeated cooperation were essential to this report.

This book follows up on *Better Models for Development in the Shenandoah Valley*, published in 1999 by the Valley Conservation Council and the Conservation Fund. All rights reserved.

Every effort was made to present accurate information. For any mistakes, omissions, or misinterpretations, we apologize.

Why Do a State of the Valley Report.....	I-5
What Are Better Models of Development	I-7
Locality Ordinance and Program Checklist.....	I-8
Principle 1: Conserve Natural and Scenic Assets	1
Importance of Farming and Forestry	3
County Information Sheets	6
Where is Farming Going?	28
Where is Forestry Going?	32
Farmland Protection Efforts.....	36
Common Strategies	37
Rural Development Potential Sheets	45
Riparian Areas and Special Habitats.....	57
Water Quality.....	58
Natural Heritage Resources.....	67
Principle 2: Maintain a Clear Edge (Reduce Sprawl)	69
Photo Comparison: Stuarts Draft 1968 and 1998.....	70
Changes in Land Cover	72
Population and Housing Trends.....	75
Forces of Sprawl.....	82
Principle 3: Build Livable Communities.....	85
Extend Villages and Towns	86
Make True Neighborhoods	87
Provide Parks and Open Space.....	88
Strengthen Community Cores	90
Rework the Strip	93
Principle 4: Preserve Historic Resources.....	94
Identification of Historic Resources	95
Protection of Historic Resources.....	97
Battlefield Protection	99
Principle 5: Respect Local Character.....	101
Programs and Ordinances.....	102
Sign Regulations	103
Landscaping Regulations	109
Scenic Preservation Efforts	113
Better Models for Development Award Winners	118
Principle 6: Reduce the Impact of the Car	119
Alternatives to the Car.....	120
Trails and Greenways	123
Road Standards and Design	125
Additional Source Notes.....	127

Charts, Maps, and Tables
